

CLEARBANC

Growth Capital for the New Economy

MASSIVE TRENDS EMERGING Direct to Consumer

DTC brands have taken significant market share from incumbents by producing simpler product lines and owning the customer relationship. This has led to the fall of CPG giants across many categories

These brands are able to scale faster and capture more margin than consumer brands ever have in the past

Razor Market US

- Gillette's share of the market fell from 70% in 2013 to 54% in 2016
- Dollar Shave Club and Harry's combined U.S. share rose from 7.2% to 12.2% in 2017

Online Mattress Market

There has been a huge rise of DTC mattress in the box companies like Casper, Nectar (a Clearbarnc customer!), Leesa & Purple. Casper has stolen almost 10% of the global mattress market in less than 5 years

MASSIVE TRENDS EMERGING

Capital Markets are Changing for Entrepreneurs

Founders are building large businesses without raising traditional VC

Companies are waiting to go public

Direct Listing vs IPO like Spotify and Slack

Founders staying in control longer

VC growth is at an all-time high in terms total dollars invested in private tech companies

Rise of mega funds like Softbank and Sequoia

ICOs raising more money than venture or IPOs

Slack Follows Spotify in Pursuing Direct Listing Route

While the process is seen as never high is traditional IPO, the collaboration and messaging platform company has stay to worry about.

By [Alexa](#)
Fri 8, 2019 at 11:00am

It's official: Slack Technologies is going public. A company blog post confirmed the collaboration and messaging platform provider had confidentially submitted a draft S-1 registration statement to the SEC this week, though it didn't disclose any details about how it plans to sell its shares to the public.

Previously, reports indicated it will be using a direct listing route, which means the company will

More Start-Ups Have an Unfamiliar Message for Venture Capitalists: Get Lost

Founders have only had **two ways**
to fund their companies

**The only options are to give up a piece of your
company or give a personal guarantee**

“

40 % of all VC dollars go directly into
Facebook and Google

Chamath Palihapitiya
Founder, Social Capital

”

**THIS MEANS FOUNDERS ARE USING THE MOST EXPENSIVE CAPITAL (EQUITY)
TO DO SOMETHING THAT SHOULD GENERATE MEASURABLE, PREDICTABLE GROWTH**

minutes

TopPitchDeck

Clearbanc developed the first revenue share agreement for funding repeatable growth like digital ad spend

And founders **LOVED** it

Will fund \$1B in 2019

Over 1000 companies funded

Funded \$143M USD in 2018

CLEARBANC

A better alternative
across all forms
of financing

The Most Affordable Capital You Will Find

	Clearbanc	Venture Capital	Bank Loan	Credit Cards
Cost	6% Flat Fee	Ownership of your company	Compounding interest rates + personal guarantees	Teaser rates + hidden fees
Time	24 hours	Months - Years	Weeks - Months	Days - Weeks
Amount	\$10K - \$10M	\$5M - \$100M	\$10K - \$100K	\$5K - \$100K
Risks	None	You lose control of your company	You lose your house	You lose your good credit score

CLEARBANC

Clearbanc is creating a whole new asset class

While VC funding can be an important part of a company's growth plans, it should not be used to fund repeatable parts of growth

Clearbanc is creating a new asset class to fund the predictable, measurable parts of growth like FB and Google ads

As a company increases in value over time the cost of Clearbanc remains flat while the cost of equity increase proportionally to an increase in valuation

Cost of Equity vs Clearbanc

Since the initial funding round, Uber has increased over 4,000 times in value, making a \$250,000 investment worth more than \$1,100,000,000

That's not a typo.

Most founders never appreciate the effective APR of equity

Initial funding amount was \$250,000 and valuation was \$1,100,000,000

CURRENT VERTICAL E-Commerce

- Retail e-commerce sales in North America continue to grow by **15.4%** CAGR and globally by **12.6%** CAGR
- Over **300k** qualified e-commerce businesses in the US and **1.2M** globally doing:
 - More than \$100k of annual revenue
 - Operating over 6 months
 - Repeatable ad spend with 2:1 ROAS
- Huge opportunity for cash flow positive businesses

E-commerce brands are spending 40% - 60% of their revenue on customer acquisition

Total Addressable Market

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

CASE STUDY

Vinebox

Vinebox

A YCombinator backed wine discovery subscription service.

VINEBOX

"With the capital Clearbanc provided, we were able to double down on our marketing efforts, amplifying the channels that were already working well for us."

- Matt Dukes, CEO & Cofounder
Vinebox Inc

Matt had discovered that he was able to acquire customers profitably through paid ads on Facebook, Instagram & Pinterest. Matt wanted to increase his marketing budget in Q4 and maximize his revenue through all of the above.

Vinebox was approved for \$150,000 from Clearbanc which Matt used to fund his Facebook, Instagram, & Pinterest Marketing.

Vinebox revenues grew over 596% in Q4 of 2017

Vinebox realized a 1,101% ROI on the capital invested

Vinebox was able to secure a \$5.3M Series A at double the expected valuation

CASE STUDY

Coastal Co.

Coastal Co.

A subscription service provider of premium, coast-inspired apparel & accessories.

Since switching over to a quarterly subscription model, Kevin was able to lower his customer acquisition cost to below the average order value generated on first purchase.

"No-brainer" for Coastal Co. to accelerate their marketing as they are able to acquire customers profitably on the first purchase and profit from increased customer lifetime value.

Coastal Co. will gain an estimated 8.8k new subscribers, generating \$4M of LTV over the next 12 months assuming constant revenue per subscriber

Paying 6% fee to generate \$4M of LTV results in an effective cost margin of 0.45%

For every dollar Clearbanc provides in advertising spend, Kevin will be able to generate \$2+ in contribution margin, thereby growing his top and bottom line significantly as a result of the capital provided by us
